SUMMARY

I am Atharv maske , A passionate Frontend Developer and UI/UX Designer pursuing a Diploma in Computer Engineering at Vidyalkar Polytechnic. Skilled in creating responsive, modern, and user-centric web applications using HTML, CSS, JavaScript, React, and modern frontend technologies and also hands on experience in python. Experienced in building real-world projects, collaborating in teams, and transforming design concepts into high-quality user interfaces.

PROFESSIONAL EXPERIENCE

Intern

Worked as a Frontend Development Intern, contributing to responsive web applications, UI design, API integration, and QA testing. Gained hands-on experience with HTML, CSS, JavaScript, React, Node.js, MongoDB, Git, and collaborative software development workflows.

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Responsive Web Design
- Bootstrap
- Tailwind CSS
- CSS Animations

Backend (Basic)

- Node.js
- Express.js
- REST APIs
- JWT Authentication
- MVC Architecture
- CRUD Operations

Programming Languages

- JavaScript
- Python
- C
- C++

UI/UX Design

- Figma
- Wireframing
- Prototyping
- User Interface (UI) Design
- User Experience (UX) Design
- Design Systems
- User Research
- Responsive Design
- Glassmorphism Design

Database

- MongoDB
- Mongoose

Tools & Platforms

- Git
- GitHub
- Visual Studio Code
- Postman
- MongoDB Atlas
- npm
- Vercel
- Netlify

LANGUAGES

- English
- Marathi
- Hindi

PROJECTS

NEXORESHA Perfume Website

07/2026 – 07/2026

project at the company where i was intern

Built a premium perfume landing page featuring modern UI, glassmorphism effects, responsive layouts, and engaging animations to deliver a luxury brand experience. **Technologies:** HTML, CSS, JavaScript

Personal Portfolio Website

05/2026 – 06/2026

Designed and developed a modern, fully responsive portfolio to showcase my skills, projects, and experience. Focused on clean UI, smooth animations, and an optimized user experience. **Technologies:** HTML, CSS, JavaScript, React, Figma

Eco Pickup Landing Page

07/2026 – 07/2026

Developed a responsive landing page for an eco-friendly initiative with a clean design, clear call-to-action sections, and mobile-first responsiveness. **Technologies:** HTML, CSS, JavaScript

GuardianX – Safety Application

07/2026 – Present

Final year project

Contributing to the UI/UX design and frontend planning of a safety application featuring emergency SOS functionality, live location tracking, and secure authentication. **Technologies:** React Native, Figma, Node.js, MongoDB

Role-Based Service Engineer Management System

05/2026 – 06/2026

project as intern

Worked on a web application for managing service engineers, approvals, reports, and role-based access with a focus on frontend interfaces and user experience. **Technologies:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

Cinematic Landing page

07/2026 – 07/2026

Developed a high-performance animated landing page featuring smooth transitions, scroll-triggered effects, immersive interactions, and a modern responsive interface. Optimized for performance while delivering an engaging user experience. **Technologies:** HTML, CSS, JavaScript

Bullet Explosion Website

05/2026 – 05/2026

Created an interactive web experience featuring a dynamic bullet explosion animation with advanced JavaScript effects, responsive layouts, and engaging visual interactions to demonstrate creative frontend development. **Technologies:** HTML, CSS, JavaScript

AirSketch AI – Hand Gesture Drawing & Shape Recognition System

07/2026 – 07/2026

Developing an AI-powered computer vision application that detects hand gestures through a webcam, tracks fingertip movements for touchless air drawing, and recognizes user-drawn shapes. Features real-time hand landmark detection, gesture-based controls, virtual canvas drawing, geometric shape recognition, and rough-to-perfect shape conversion.

Technologies: Python, OpenCV, MediaPipe, NumPy, Computer Vision

Nike Luxury Showcase Website

08/2026 – 08/2026

Designed and developed a premium Nike-inspired landing page featuring a 3D product carousel, interactive shoe showcase, exploded-view animations, responsive layouts, and modern UI/UX principles for an immersive shopping experience.

Technologies: HTML, CSS, JavaScript, Three.js, GSAP, React
